

## History and Culture of Tu Cheng Elementary School

Tu Cheng was formerly known as Nei Muzha, and since ancient times, it has been an important place for Taichung, Caotun and other places to enter Puli. In addition, it is reflected by Yanshan Mountain and surrounded by Wuxi. The mountains and rivers are beautiful, and the folk customs are honest, so talented people come out in large numbers.

Insightful people realized that school education had a profound impact on future generations, so the district mayor Huang Chun Fan initiated the establishment of the school in the first year of Xuanton in the Qing Dynasty. In the tenth year of the Republic of China, it has been granted independence as Tu Cheng Public School for one hundred years.

The dedicated teachers at Tu Cheng Elementary School have cultivated countless students. The establishment of this school is not only the enlightenment of life wisdom, but also has become the cradle of local education.
